TURF-MAKER LAWN FOOD

(Formerly Turf-Ton)

WHY SHOULD YOU USE IT? HOW SHOULD YOU USE IT?

Read these selling points and

INCREASE YOUR SALES

1. Although TURF-MAKER LAWN FOOD is sold more than most fertilizers, it covers more than twice the area.
2. At the lawn level, it feeds the lawn through all the necessary plant stages.
3. The nitrogen is released slowly. The nitrogen is derived from organic sources. This means a longer feeding period. The organic break down in the soil slowly and become available to the grass over a period of time.
4. TURF-MAKER LAWN FOOD is for lawns only - new plantings, lawns, lawns, and lawns. Lawns are growing, lawns are mowed, and nitrogen is the most of all elements. The phosphorus and potash content is provided in that proportion needed by grass plants.
5. TURF-MAKER LAWN FOOD is a good investment for you and your trade. It provides a profitable "tie-in" sale and a satisfied customer.

THE QUALITY OF THE TURF-MAKER LAWN FOOD IS GUARANTEED TO BE THE BEST AVAILABLE.
